TOLO

Adriano Tolomei Design

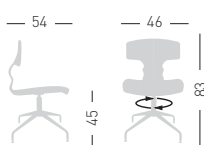

Strictly straight lines connected by a thin and stylish range of smooth curves. In the Tolo chair, aesthetics embrace convenience and combine to provide a suitable complement to operational areas, both contract and residential. Large selection of finishes, structures and accessories to meet an unlimited number of applications, without altering the original character. The Tolo family comes from the designer's idea brought to life thanks to Gaber's advanced technology research both in materials and production systems, resulting in a stunning chair.

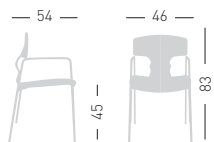

Linee rigorosamente sottili e diritte, unite da un raffinato intervallo di curve sinuose. Nella seduta Tolo, l'estetica abbraccia la comodità, fuse per regalare un completamento adatto agli spazi operativi, contract e residenziali. Grande selezione di finiture, strutture ed accessori, per soddisfare una illimitata serie di applicazioni, senza alterare il carattere originale del prodotto. La famiglia Tolo nasce dall'idea del designer concretizzata grazie alla ricerca tecnologica avanzata di Gaber e all'attenzione dei materiali, per offrire al design una seduta funzionale e di gran effetto.
