Block Classic Raw

A key interiors trend, raw materials are being used to creative effect. These are now in demand for stimulating workspaces, designed to attract and retain top talent. CEOs find that their people expect more from their furniture.

The Block Classic_Raw offers the rustic look of unfinished timber in a robust, sleek design. The contrast of smooth laminate and raw wood earns style kudos. In a world of uniformity, the unpredictable quirks of textured, natural surfaces have unique appeal. Included in a corporate setting, these signal that creativity and innovation are valued.

The form of the Block Classic_Raw matches the needs of the modern workplace - an area to meet and collaborate, built for easy access. The wide table is offered in three sizes, with matching benches. Or choose the ergonomic sit/stand option with the poseur table and stools. It's the stylish place to meet.

Specification
