ARGO

SPACE SAVING FAMILY

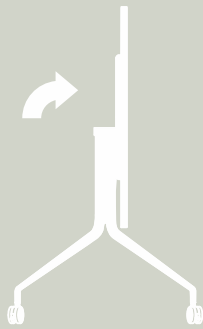

mara®

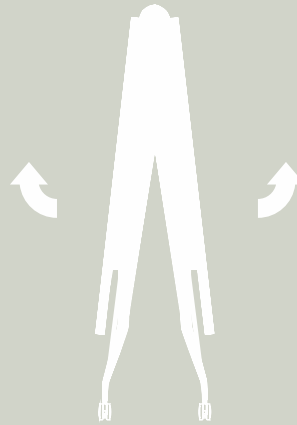

ARGO

A SPACE SAVING FAMILY

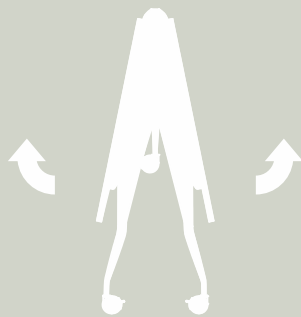

The double conical leg Argo, made in steel, offers a **resistant and stable** support while evoking elegance and lightness. Made in MARA workshops, it distinguishes this family of folding, tilting-top and folding-leg tables. The handling and stackability of these tables, both horizontally and vertically, allows the optimal **spaces exploitation**, making them perfect for offices, conference rooms and restaurants. The epoxy-polyester powder coating completes and enhances the range of tables.

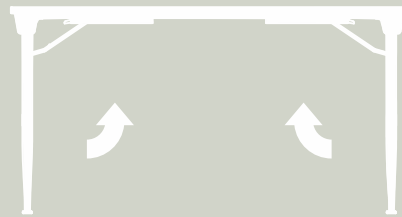

Argo R

Argo Libro

Argo Libro T

Argo P

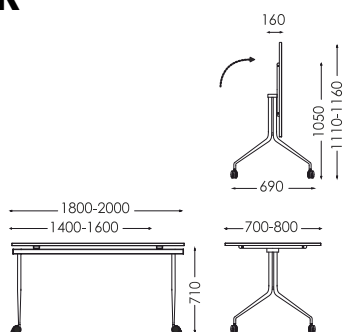

ARGOR

art. 206r

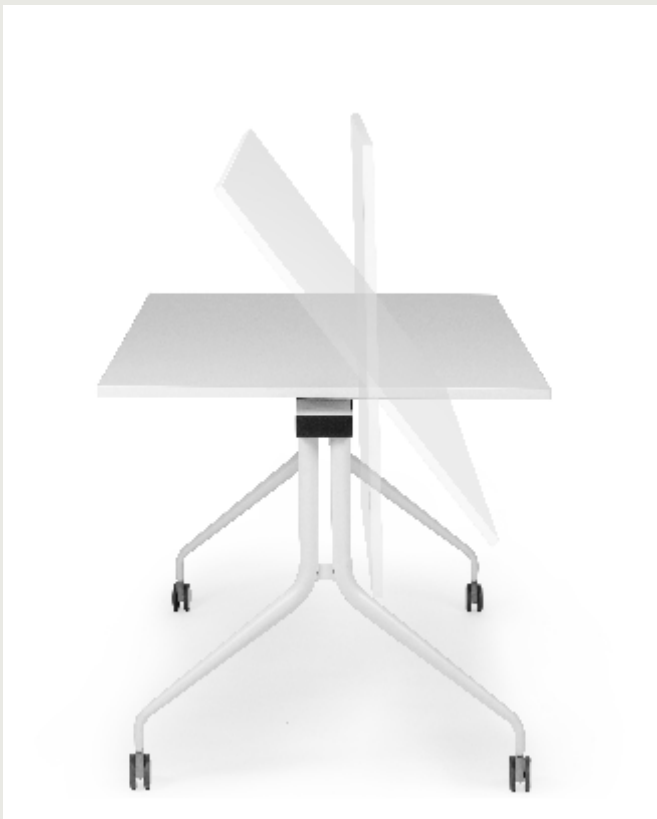

UNI EN 15372

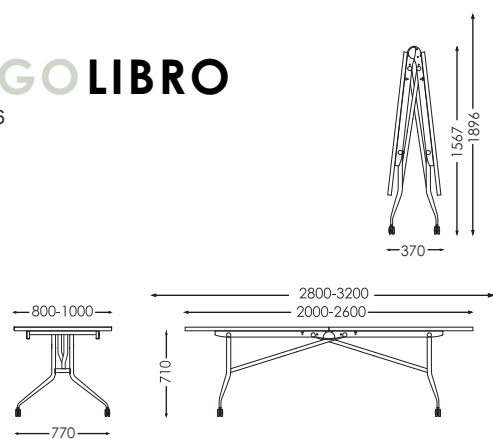

Sturdy and safe table characterized by a space-saving tilting-top system. Thanks to its **reduced dimensions**, only 16 cm each table, it is possible to stack 10 tables in less than 2 meters. The castors make this table **easy to move**, allowing even **one person** to organize the spaces of use, be they offices, training rooms or conference rooms. The two top-release levers are designed to allow an easy and ergonomic use of the table. The table is EN certified, to guarantee excellent resistance even in high stress situations. It is possible to use linking accessories to connect the tables one to each other and furnish large spaces.

ARGOLIBRO

art. 286

Libro is a **space-saving** table of big dimensions that can be folded in 40 cm. Available in a wide range of sizes, can be used during conferences, meetings, workgroups and trainings, whilst giving the location a broad usage **flexibility**. The mechanical folding system makes this table easy to maneuver by one person alone. Once closed it can **pass with ease through doors and elevators** and can be placed in small storages as well. Libro is certified EN-15372:2016, which proves its robustness, reliability and security. The table is equipped with the exclusive **ANTI-SHOCK** system, designed and patented by MARA.

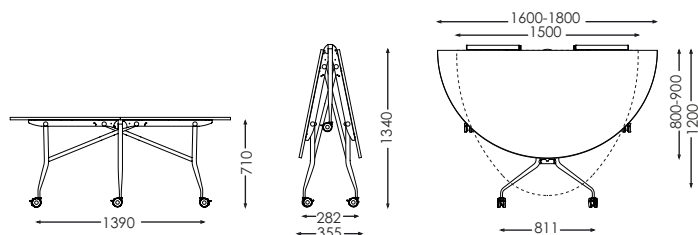

The exclusive MARA patented **ANTI-SHOCK** system is able to keep the user's hands safe when opening the table.

ARGOLIBROT

art. 286t

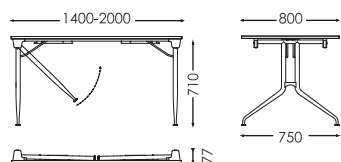

Characterized by a six castor frame, two more legs than LIBRO, this frame offers a **wide and sturdy support surface** when open, occupying just 36 cm when closed. Designed for round or elliptical tops, it can be used during meetings, workgroups and banquets. The mechanical locking system makes this table easy to maneuver by **one person alone**. The table is equipped with the exclusive **ANTI-SHOCK** system, designed and patented by MARA.

ARGOP

art. 216p

Easy to handle, practical and completely made in MARA workshops, Argo P is a table of **reduced dimensions**, only 9.7 cm when closed, that offers a solid working surface. **Stackable** with ease, it is possible to load up to 5 tables on top of the MARA trolley for rapid handling. Special **rubber stacking protections** prevent the tables from moving when stacked and help protect the laminate tops. The leg locking system is entirely made of steel, able to withstand heavy stress.

Mara is an historical Italian company specialized in the production of innovative, aesthetic and functional systems and furniture elements for the office, community and everyday life. Rigorous and careful research, innovative and advanced production technologies allow Mara to carry out all the production phases within its production premises in Brescia: from laser cutting to welding, bending and painting. Great attention is also paid to the requirements of safety, resistance and reaction to fire and to the achievement of European certifications that allow us to propose products in tenders for public spaces: collections of tables, seating and complements distributed all over the world to furnish stimulating environments in which to live and work, improving the well-being and comfort of people.
