## Designers

Form Us With Love, is the international design studio founded in 2005. Since its conception, the studio has burned with a passion for design and its democratic potential. Its belief is that we all have a right to meaningful design.

At the studio's core lies a process that blends traditional creative practices with a lean, strategic application. The central intention is to evolve with the needs of each project, its place in the market and the ever-changing needs of real people.

Today, the work of Form Us With Love falls into three areas: Consultancy—an engagement in products, ranges, collaborations and spaces for clients around the world, Ventures—disciplined and holistic approaches to launch and build brands, Civic—based on knowledge transfers and sharing of experiences, actively contributing to the broader spectra of design.

# New School

Growing on the classic school chair, New School provides a range of options available to meet the varied ergonomic requirements of modern office environment – add castors for mobility, headrest for increased comfort or choose an option with armrest to support a range of arm postures.

A high stool featuring a comfortable footrest is in turn a perfect pick for an informal meeting spot or pantry area. Mix and match finishes such as veneer or upholstery to create a space that feels like a diverse ecosystem, but in reality is made from just a few product types.
