pure style that doesn't cost the earth

(10yr)
guarantee*

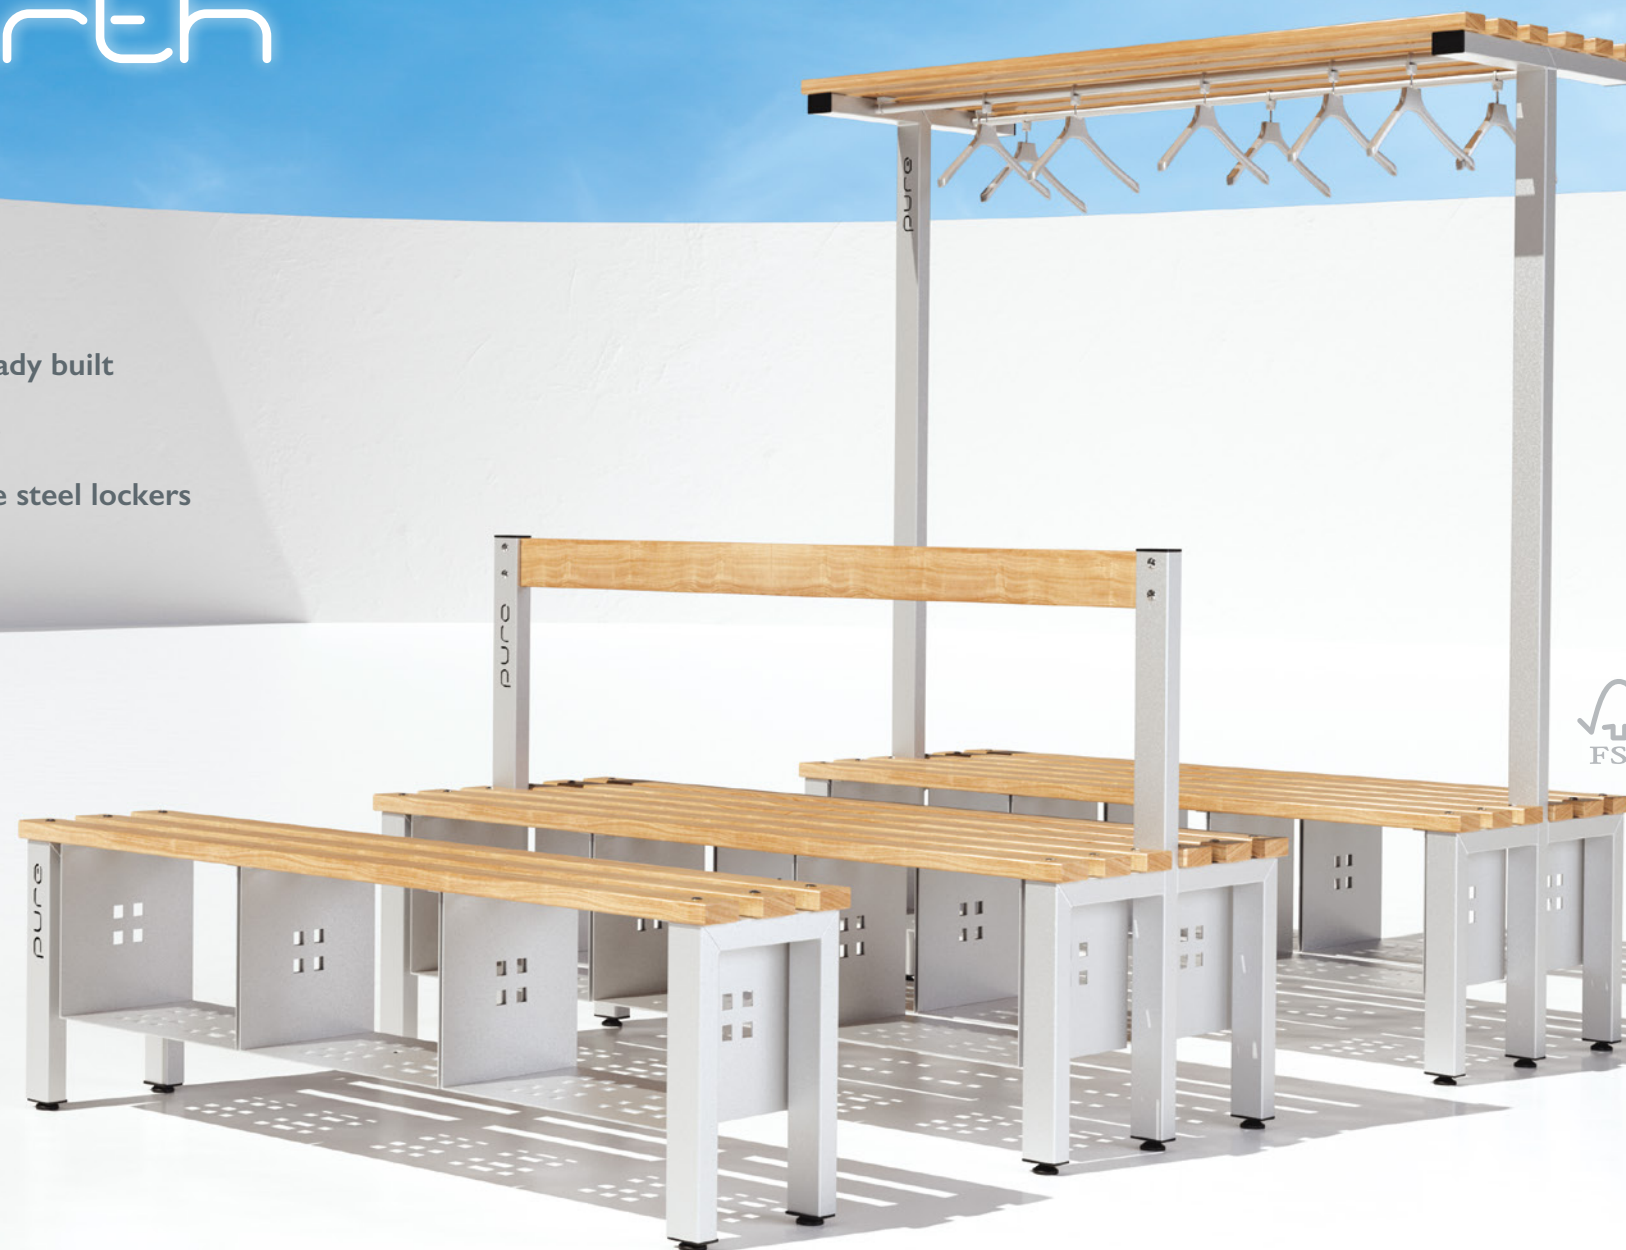

- NEW robust design
- Solid steamed beech wood slats (FSC certified)
- Range of standard sizes to suit most applications, supplied ready built
- Anti-ligature polymer coat hooks with anti-microbial additive
- Frame and hook colours to co-ordinate or contrast with Pure steel lockers
- Floor or wall fixings available

Many changing rooms require a place to sit whilst changing clothes. Designed to withstand the rigours of heavy use, this range of pre-assembled cloakroom furniture is both strong and attractive. Available in standard width modules of 1000mm, 1200mm, 1500mm and 2000mm and seat heights to suit senior/adult, junior and primary. We know that most changing areas are different, so if the standard modules don't work, non-standard sizes are available and can be priced on application.

(CO₂ zero)

an industry first

pure, right here in the UK, is the first and only carbon zero manufacturing facility in our industry.

MADE IN BRITAIN

pure by name,
pure by nature

revolutionary production

By investing in the most modern manufacturing machinery currently available in Europe, we can boast the most efficient steel cloakroom manufacturing facilities in the UK. Our world class production plant utilises the latest in data driven technology placing Pure firmly in the Industry 4.0 age. Our attention to detail and the speed of production achieved by our new tooling allows us to deliver a service not yet experienced in our marketplace.

carbon zero

We take our social and environmental obligations very seriously. By sourcing raw materials and energy responsibly and investing heavily in the latest production techniques we can minimise our carbon footprint and are proud to offer, what we believe is, the first carbon neutral manufactured steel cloakroom range in the world.

our product

The Pure range is the result of many years of experience in the personal storage industry. We know everybody's requirements vary, so have an unrivalled ability to adapt to most needs. Each product in our range has been reimagined and redesigned utilising our cutting-edge technology to ensure we offer a product to suit your requirements.

covid safe

At the heart of our own anti-bacterial coating, Bioshell, is Powdura® ECO powder coating from Sherwin-Williams. This COVID safe powder coating provides customers a more eco-conscious anti-bacterial solution to product protection, colour and performance.

(industry 4.0)
data driven technology

Carbon zero manufacture
Carbon zero for scope 1 and 2 emissions 2022.

Zero to landfill
We reduce, reuse, re-purpose and recycle all waste generated by our operation.

No single use plastic
We have eliminated single use plastic from all of our packaging.

Carbon zero company
We will achieve net zero by 2025.

COVID safe coating
Our Bioshell powder coating incorporates an anti-bacterial ingredient.

Robust anti-ligature polymer coat hooks for added safety and longevity.

Solid beech slats offer natural anti-bacterial properties.

Stylish contemporary design bringing life to any cloakroom.

FSC certified solid Beech slats or an alternative polymer option.

Extremely robust powder coated frame including Bioshell, our own anti-bacterial coating.

Pure baskets are designed to fit seamlessly under our full bench range, no matter which size you choose.

Stylish shoe baskets help to keep those messy shoes off the floor maintaining a clean and tidy look.

pure seats & stands

In some situations it is a requirement that staff can clean under lockers to prevent a build up of dirt and debris. This can also ease access to the bottom locker compartment. We can supply stands to lift the locker body from floor level. Usually 150mm high and fitted with adjustable feet to counteract uneven floors, these stands can be supplied in multiple locker widths to save cost and make installation easier:

Not all changing rooms have the available space to accommodate separate changing benches. To contend with this, we can supply a combined bench seat and stand. Benches have solid wood slats, can be manufactured in multiple locker widths and have the added benefit of allowing cleaning under the lockers.

pure leisure - aluminium

In some situations it is a requirement that staff can clean under lockers to prevent a build up of dirt and debris. This can also ease access to the bottom locker compartment. We can supply stands to lift the locker body from floor level. Usually 150mm high and fitted with adjustable feet to counteract uneven floors, these stands can be supplied in multiple locker widths to save cost and make installation easier.

aluminium stands

(water resistant)
suitable for wet environments

These robust aluminium stands are constructed from 25mm square tube.

Not all changing rooms have the available space to accommodate separate changing benches. To contend with this, we can supply a combined seat and stand. Seats are topped with extremely tough 12mm solid grade laminate and can be manufactured in multiple widths giving the added benefit of allowing cleaning under the lockers.

aluminium seats & stands

(water resistant)
suitable for wet environments

These extremely robust aluminium seat & stands are constructed from 60mm x 40mm square section fully welded and laser cut.

Seats are constructed from 12mm solid grade laminate and are available in a huge range of colours to match cubicals.

pure leisure - aluminium

(12mm SGL)
solid grade laminate

PAS 2060:2014
Certified Carbon Neutral

(10yr)
guarantee*

This range of lockers has been designed to meet the specific needs of the leisure market. We understand the need to marry the two requirements of appearance and practicality in a challenging environment.

pure benefits

Robust self closing hinges, eliminate the danger of users colliding with open doors.

Aluminium bodies will not corrode in wet conditions, and solid grade laminate (SGL) doors and cover panels are not only highly water resistant, but also highly resistant to malicious damage.

Our extensive range of dry and wet area locks will protect users personal property. Whether it's key, padlock, coin operation or RFID swipe card we have a solution.

In conjunction with a wide range of accessories we can design, manufacture and install a full changing area scheme. We are not limited to a specific laminate manufacturer, we can provide doors that match cubicles or vanity fittings.

pure shield - sgl

Where appearance counts or locker doors need to withstand the rigours of heavy use, we have a range of solid grade laminate (SGL) door lockers. Our range of laminate surfaces and colours are made to match cubicle or furniture finishes. The sturdy composition of these doors allows the surface to withstand a great deal of punishment in demanding environments such as schools, universities, leisure facilities and many more.

pure benefits

The perfect combination of strength and aesthetics, these lockers have become widespread in educational and leisure applications where lockers are expected to both look good and withstand the rigours of severe use. Self closing hinges minimise damage to property and person, through door fixing provides a strong and secure door fastening. Multiple locking options from a simple padlock through to remote locker rental allocation and revenue. With a huge variety of colour finishes available through laminate manufacturers, the design possibilities are virtually limitless.
