Keep It Simple, Keep It Neat

Ws.D Key Bookcase and Cupboard

Think of the Ws.D Key Cupboard and Bookcases by Workscale. Design as simple, dependable ways to keep your workspace tidy. They come in widths like 400mm, 800mm, and 1000mm, so it's easy to find one that fits just right. Choose a bookcase if you want quick, open access to things like binders and books. Pick a cupboard if you'd rather tuck files and personal items behind doors. Both options are available in different heights (from 1 to 6 levels), letting you create as much storage as you need.

You can match these with other pieces in the collection—like the Ws.D Key Pedestals—to create a consistent look. With a range of finishes, you can keep things subtle or add a bit of personality to your space. It's about having a place for everything, without making your office feel crowded or overwhelming.

CUPBOARD

Ws.D Key Pedestal

The Ws.D Key Pedestals are a handy companion for your desk. They slide neatly under your work surface and come in either a 2-drawer or 3-drawer version. The 2-drawer model has a spot for files, while the 3-drawer model is all about those everyday essentials. Mix and match finishes with your cupboard and bookcase, so everything feels like it belongs together. Whether you're in a small home office or a large open-plan space, these pedestals help keep the clutter at bay. No complicated setups or over-the-top features—just practical storage solutions that make it easier to focus on what matters most: your work.

Build for Your Needs

You can choose from a range of sizes starting at a neat 400mm width, going all the way up to a more spacious 1000mm. Pick an open bookcase if you like easy access, or go for a cupboard with doors if you'd rather keep things tucked away. Need something smaller that fits under your desk? Our pedestals come in slim and standard versions, so you can find the right fit without compromising on style or storage.
