Our Commitment to the Environment

In 2007, the last year global statistics of oil consumption were available, between 32 million and 54 million

There are approximately 50 billion water bottlesbarrels of oil were used to produce the bottled water consumed around the world each year, and only aboutthat was consumed in the USA alone. This energy is half of those get recycled. The rest end up in landfills, used to make the bottles from PET pellets (1 million littered through our neighborhoods, or floating in ourtons in the USA), treat water, bottle the water, label the oceans. bottles, and transport the bottled water. Most of the
