RADIUS
OFFICE

info@radiusoffice.com
www.radiusoffice.com

An ergonomic sit/stand desk stored in a small cabinet in the colour of your interior!

That's **HomeFit**©.

Working from **home** like in the office

We all work more and more from home. If you have the luxury of a separate (work) room, you'll probably choose an adjustable desk and a good office chair.

However, not everyone has the space for such a home office. That is why we have HomeFit©!

With a width of only 105 cm and a depth of 30 cm, HomeFit© is no bigger than a shoe cabinet or a large suitcase.

The unique design and many colour options will guarantee that HomeFit© blends seamlessly into any living room.

The transformation from an anonymous cabinet into a fully functional workstation can be done quickly and easily by opening the doors and folding up the worktop.

The worktop also contains the controls for height adjustment. The handy storage tray in the cabinet provides space for work related materials such as a laptop, mouse, binder or work folder.
